### Enjoy the aroma —How to drink shochu—

Miyazaki authentic shochu is not only an evening drink but can also be an aperitif and an accompaniment drink. You can enjoy it in a variety of ways depending on your preference.

**On the rocks**

Suitable for high strength shochu. The key is to put the ice in the glass first to cool the glass sufficiently before pouring in the shochu.

**With water**

When mixed with water you can drink it at the strength that is best for you. 'Maewari' refers to the process of diluting shochu with water and letting it sit and has a mellow taste.

**Mixed with soda water**

You can also dilute it with carbonated water. Especially in the summer, it is easy to drink and is recommended. Adding citrus fruits such as the hebesu or the hyuganatsu can also give it a refreshing taste.

**With hot water**

A common way to drink shochu in the winter. If you add hot water before shochu, you can enjoy the aroma of the shochu that is blended into the steam.

#### 【About Miyazaki Authentic Shochu Flavor Map】

The information included on the map is not limited to all the breweries in Miyazaki Prefecture. The authentic shochu, which uses sweet potatoes as the main ingredient, is evaluated based on its aroma components and taste. This map is created by plotting the analyzed statistics results from instrumental analysis and human senses. ( implemented by Miyazaki Prefecture Food Development Center )

※The taste and aroma of shochu differs from person to person. The taste also depends on how you drink the shochu, such as on the rocks or with hot water.

※The taste and aroma may vary depending on the time of purchase, manufacturing lot, as well as storage conditions after purchase.

#### Refreshing

Calm and refreshing

※The selling and consumption alcohol by persons under 20 years of age is prohibited by law.
